Eliminate Coins!

LAUNDRYCARD

The LaundryCard System replaces all of the traditional coin mechanisms in your store with networked card readers, great for stores with over 40 machines. It is a complete business solution to automate your laundromat. Say goodbye to counting coins and hello to custom loyalty cards, real-time reporting, marketing tools, remote management and more!

Features Include

- Choose your processor
- Networked Readers
- Smart Machine Interface
- Penny Incremental Pricing
- Easy, Single Point Collection
- EBT Option Available
- Employee Time Clock
- Remote Management

Easy-to-use
Customer Interface

The LaundryCard X-Changer dispenses customer loyalty cards that customers can add value to without an attendant. The system maintains the customer's card balance and allows them to revalue their card or redeem coupons at any time.

The X-Changer also acts as the hub for store management, allowing employees to clock in, mark machines as unavailable, assist customers and more.
